Description

The Casella HY-TURB M is a high-quality hose reel designed and manufactured by an Italian company. This model is suitable for irrigating large areas, with up to 550 meters of pipe. The HY-TURB M has a special turbine system that automatically regulates the water pressure and speed, ensuring uniform and efficient irrigation. The Casella HY-TURB M hose reel is easy to handle and maintain, as well as durable and reliable. If you are a farmer who wants to save time and money on irrigation, you should buy this Italian quality product. □□□□□□

Hose reel with hot galvanized frame. Turbine sized for flow rates from 650 to 1250 liters / minute (39 - 75 m3 / h). 4 gears plus socket for tractor PTO cardan coupling. Manual rotation of the multi-position turret up to 270 °. Hydraulic lifting of the trolley. 3-wheel trolley. Sime Reflex jet with mouthpieces. Water inlet hose. Double water inlet. Mechanical front brackets. Mechanical speed compensator for rewinding PE pipe. Tyres 10.0/75-15.3
