Description

The Casella HY-TURB S is a high-quality hose reel designed and manufactured by an Italian company. This model is suitable for irrigating large areas, with up to 400 meters of pipe. The HY-TURB S has a special turbine system that automatically regulates the water pressure and speed, ensuring uniform and efficient irrigation. The Casella HY-TURB S hose reel is easy to handle and maintain, as well as durable and reliable. If you are a farmer who wants to save time and money on irrigation, you should buy this Italian quality product. □□□□□□

Hose reel with hot galvanized frame. Turbine directly connected with gear box. Water flow 400-800 litres/minute (24 — 48 m3/h). 4 gears, and joint for PTO drive shaft. Manual Rotation of the frame with several positions, to 270°. Hydraulic lifting of the trolley. 3 rubber wheels trolley. Sime sprinkler “Royal” with nozzles. Ø80 flexible hose for water inlet. Mechanic balance for pipe rewinding. Tyres 10.0/80-12
