Description

The Casella HY-TURB XS is a high-quality hose reel designed and manufactured by an Italian company. This model is suitable for irrigating normal areas, with up to 300 meters of pipe. The HY-TURB XS has a special turbine system that automatically regulates the water pressure and speed, ensuring uniform and efficient irrigation. The Casella HY-TURB XS hose reel is easy to handle and maintain, as well as durable and reliable. If you are a farmer who wants to save time and money on irrigation, you should buy this Italian quality product. □□□□□□

Orientable hose reel. Pipe recovery by turbine. Water flow from 180 to 400 litres/minute (10 — 20 m3/h). 4 gears, and joint for PTO drive shaft. Manual Rotation of the frame with several positions, to 270°. Hydraulic manual lifting of the trolley. Hot galvanized frame.
