Description

Oval and Round Pasture Drinkers with quick filling: JFC is proud to introduce a new range of oval and round chamber drinkers, available with a quick fill valve. The valve is protected by a plastic cover with easy access for maintenance. The drinkers offered by us are available in sizes 870 - 1590L, they include a drain plug that allows for quick emptying of the drinker and its easy cleaning. They are ideal for dairy farming where access to large amounts of water is needed, especially after milking. Each drinker has a rounded rim and embossing in the walls, which is a guarantee durability and high resistance to damage. Also available with standard "float valve (BV3 / 4-B).
