Parameters

Name	Value
Weight	30 kg
Dimensions	670x360x mm

Description

The JANSEN® stump grinder is specifically designed for quick and effective removal of tree stumps and roots. Ideal for use after tree felling, this grinder allows easy creation of level surfaces. With a rotating grinding disc equipped with 3 cutting blades, the JANSEN® stump grinder shreds tree stumps into small pieces. Thanks to the centering tip, the stump grinder pulls itself into the stump and grinds it with its cutting blades.

FACTS THAT SPEAK FOR THEMSELVES!

Efficient and time-saving: Removes stumps faster than traditional methods.

Easy to transport: Compact design and a low weight of about 30 kg make transportation easy.

Low noise: Quiet operation, ideal for use in residential areas.

Robust construction: Screwed consumables (blades & centering tip) ensure durability and easy maintenance.

No additional cleanup: Stumps are so thoroughly removed that no additional cleanup at logging sites is required.

TECHNICAL DATA:

Can only be mounted on JANSEN® JSK-500!

Grinding head: Ø 360 mm

3 screwed and replaceable cutting blades

Replaceable centering tip

Socket: internal hexagon Ø 53 mm

Dimensions: 670x360x mm (LxW)

Weight: approx. 30 kg
