Parameters

Name	Value
Machine Power	25-30 HP
Motor Power	19-22 KW
Capacity (liter)	200 l
Height	1050 mm
Width	2050 mm
Length	1200 mm
Weight	120/130 kg

Description

Spraying group ideal for medium and large-sized farms. The frame is varnished and made of metal pipes. The tank consists of two parts: the main tank and hand-washing tank. Equipped with "BETA" boom, built with steel tubes and high resistant plastic resin nozzles-holder pipes, is mounted on sliding rails and adjustable at any height, single nozzle-holders are with check-valve. The filter has the possibility of self-filling from natural sources (wells, reservoirs for water accumulation, sources, etc.). The homogenization of the preparation is accomplished by a hydro-injector. The bottom hinge is realized in three points with a Ø22 / 28 mm sleeve. There is also the possibility of installing prochromic tubes, pressure regulators with multiple outputs and other equipment specified in the optional equipment.

Standard features:

Two tanks: polyethylene with filter and cover 200/300L and hand-washing tank 15L with faucet;
Total emptying system;
Varnished steel frame;
The bottom hinge is realized with a Ø22 / 28 mm sleeve;
Three ways pressure regulator “Start 06 – Tecomec - Italy”;
Dal Degan DL 260 NP pump (2 diaphragms, flow 60 L / minmaximum pressure 20 bar);
Filter (50mesh=300µm) GEOLINE with self-filling possibility;
Hydraulic injector TECOMEC with nozzle Ø1,25mm;
Plastic resin nozzles GEOLINE type AZ 0.2 for working pressure 3 - 4 bar, angle resin 110°;
