Description

This vineyard equipment allows you to contemporarily trim both right and left side of the row with a perfect control of the situation with high speed blades cutting. It works with the hydraulic flow from the tractor, but is suggested the use with independent hydraulic central at the rear of the tractor to avoid heating.

- Horizontal hydraulic movement independent 500 mm. left and right side
- Vertical hydraulic independent movement 500 mm. left and right side
- Hydraulic tilt +/- 20° left and right side
- Electro-hydraulic controls with joystick
- Safety device for impact against the ground with gas spring return
- Garaging stand
