Description

Two teeth belt rakes T series are light and practical machines that perform a good windrowing and aeration of weeds and hay. They apply to low power tractors both frontally and behind. Combs movements on auto-lubricating plastic bushings. Working height adjustment done manually on the rear wheels' uprights. One piece double tie-rods and pulley groups with a fixed pulley and a free one for ensuring a perfect belt alignment .Pulleys and transmission groups greasing. Safe thanks to the CE standards protections. Sandblasting and oven powder coating. 2 years warranty.
