Description

The Mowing bucket has several advantages:

- Mowing bucket for ditch maintenance

- Available in light and heavy models

- Suitable for various machines, including Herder Grenadier

- Available in various working widths, max. up to 8.60 m

- Maximum return at minimum cost

The mowing bucket is designed to mow grass and reed-like vegetation in ditches and watercourses, both above and under the water. Everyone wants a good mowing result, but everyone also wants an outline of the costs.A unique design, the application of the best materials in combination with quality workmanship gives an unequalled tool. A mowing bucket that performs everywhere and at all times.

-suitable for midi excavators and tractors from 5 to 8 tonnes
