Description

Metal-Technik Prism divider, three-point hitch mounting, TUZ

category II and III

Grader Hydraulic

Drive Description: The Metal-Technik Prism Grader is a professional tool designed for precise forming and leveling of the surface of piles.

Thanks to the three-point linkage of category II and III and the hydraulic drive, the device offers high performance and efficiency at work.

The grader is the ideal solution for managing the surface of the windrows, providing excellent control and precision.
