

**Metal Technik MT-ST Bucket WT 1200****Bucket multiservice (ST) welded teeth 1200 mm****Description****Metal-Technik Łycho - Crocodile welded teeth**

The crocodile is intended for the transport of agricultural products or manure.

Solid construction and the use of high-quality materials will ensure long-term, trouble-free operation.

The use of two hydraulic cylinders ensures adequate compression of the material.

The small dimensions of the equipment allow you to work with even the smallest tractors.

Unscrewable side panels as standard

Euro mount as standard
