Working speed	1-3 km/h
Weight	50 kg

Description

MT1300 is a professional hydraulic hedge cutter for the maintenance of lighter hedges with branch diameters of up to 30mm. It cuts and shreds the cut-off material in one run, so disposal-work is minimized. A high speed knife system ensures a clean cut, without frays. A light weight construction and a high-performance hydraulic motor ensures, that the MT1300 Multitrimmer can be used on small tool-carriers.
