Parameters

Name	Unit
Capacity (kg)	1500 kg
Weight	400 kg
Width	1250 mm
Length	3800 mm

Description

The trailer has been designed to work with class 0.6T and above tractors. It is designed to transport boxes with fruit, vegetables and other loads encountered in agriculture from the place of harvest to the place of unloading. The machine's structure is made of welded and bolted steel elements. Adjustable height of the drawbar provides the possibility of adjusting the trailer hitch to each type of tractor.
