Parameters

Name	Unit
Weight	160 kg
Working width	350 mm
Hydraulic oil	50 L
Sidemove (mm)	400 mm
Working depth	150 mm

Description

Active hoe. With this machine we can work where normal power harrows can't. The arm can move hydraulically 40 cm further. It has 35 cm working width. It needs 50l/min hydraulic oil. It can be mounted to the front or rear of the tractor via 3 point linkage. The working efficiency is 0.2-0.7 ha/h. The maximum working depth is 15 cm.
