Description

PALLET FORK
The pallet fork for the Jansen® KL-200 compact loader is a durable attachment designed specifically for easy lifting and secure transport of pallets and other loads. It allows for efficient handling of large quantities and provides a stable, easy-to-mount solution for warehouse and construction tasks. Thanks to its high-quality construction and precise fit to the Jansen® KL-200, the pallet fork simplifies daily work and increases productivity in demanding environments. The forks of the pallet fork have a length of approximately 80 cm. Each fork is about 8 cm wide. The total width of the pallet forks (fixed) is approximately 50 cm.
