Working width	1350 mm
Number of tines (cultivator)	14 pcs
Working depth	160 mm
CAT	1
Minimum HP	20 hp
Weight	284 kg
Drive	Tractor PTO .

Description

The Boxer PHS is a compact power harrow with an integrated seeder for small and mini tractors. It prepares the seedbed and sows in a single pass – ideal for grassland, vegetable growing and horticulture. The adjustable leveller, oil-bath gearbox and sharp tines give a fine tilth with little tractor power, and the seeder is driven without slip for even sowing.

The PHS 135 has a working width of 135 cm with 14 tines and a working depth of up to 16 cm. It fits a Cat. 1 three-point linkage, needs a tractor of at least 20 hp and weighs 284 kg.
