**Parameters**

Name	Unit
Weight	260 kg
Working width	1350 mm
RPM	540 rpm
CAT	I
Rotor knife	12 pcs

Description

The power harrows are ideal when preparing or sowing grass beds for parks and horticultures. Easily width-adjustable attachment points. The rotary harrow is standard equipped with a 30 cm bar roller. The depth of the rotary harrow can be adjusted by means of the height of the roller. The machine is equipped with knife tines.

Supplied complete with PTO shaft.

Delivered in package (assembly time 30 minutes).
