Parameters

Name	Value
Weight	1750 kg
Capacity (kg)	2000 kg

Description

Orchard platform is designed for fruit harvesting, branches pruning, caring and other actions in top parts of fruit trees. Using orchard platforms increase quality and efficiency and highly reduces time. Adjustable construction enables to lift platform with workers, bins and equipment on 2,6 m height. Orchard platform is designed for work with 0,6T+ class tractors with hydraulic system. Machine hydraulic system is powered from tractor hydraulic system. Steering is realised with hydraulic divider mounted on tractor or platform. Roller rayl enables easy moving bins along platform. Machine construction enables easy loading and unloadin three bins. During work with max. number of workers they must take places symetrically on both sides of the platform (for better balance).

Options
- hidraulic extension of platforms
- lift and roll
- rolls of box pallets gantry
