Parameters

Name	Unit
Length	41 mm
Sparepart Weight	85 gr
Working pressure	35 bar

Description

The 3/8" BSP nut is a sub-assembly with a quick-release coupling for efficient and fast connection and disconnection, even under pressure. The coupling is made of high quality steel and has a white galvanized surface for corrosion protection, ensuring long life even under harsh conditions.

Specification:

- connector type: 10.5 mm quick connector
- connector type: 3/8" BSP thread

Sealing material: nitrile rubber (NBR)

Connection method: push-pull mechanism

ISO Standard: ISO 7241-1 A

This coupling is extremely durable and easy to use, making it an ideal choice for those looking for a reliable and long-lasting hydraulic coupling.
