Oil flow	50 l/min
Number of hoes	6 pcs
Weight	120 kg

Description

Elkaer rotary tiller is front, rear or sub-mounted. It is powered by the tractor’s hydraulics, but it can be fitted with a separate hydraulic pump unit as extra equipment. Moreover, the rotary tiller has been de- signed with a 1.5 m side extension. The placing of the blades allows you to remove the weed around trees and bushes up to 5 cm from the trunk. A rotary tiller makes spraying unnecessary.
