Parameters

Name	Value
Weight	290 kg
Working width	2550 mm

Description

Belt rakes RIVER MAX series are the evolution of the NEW FALCON and NEW FALCON PREMIUM series, designed to work in extension with respect to the tractor track. The rotation of the belt occurs via a hydraulic motor which allows the use of the RIVER MAX even on slopes with an inclination of up to 45°. Transport is possible by tilting the rake vertically thanks to hydraulic pistons.

- Combs movements on auto-lubricating plastic bushings
- Sturdy steel sheet body for multi optional attachments
- Pulleys groups with cast-iron hubs and grease lubrication
- Sturdy belt with double-rod connecting bars
- Safe thanks to the CE standards protections
- Sandblasted and powder-coated finish
- 2 years warranty
