Parameters

Name	Value
Mowing width	1000 mm
Weight	111 kg

Description

The rotary lawn mower with a mowing width of 100 cm is for our Jansen MGT-600 motorised hand tractor.
It is ideal for all large jobs on pasture and field areas, pond areas, as well as terrain which is difficult to reach with tractors or ride-on mowers. It also, of course, can be used for commercial purposes and landscaping.
The rotary lawn mower can be attached to the Jansen MGT-600 motorised hand tractor in a few easy steps, and is ready for action immediately. With a maximum mowing width of approx. 100 cm, large and difficult to reach areas are taken care of in no time.
The cut grass is ejected to the side or if desired, collected directly in the included collection basket (approx. 160 l). The collection basket will save you a lot of trouble. The rotary lawn mower is equipped with 4 blades, which are mounted freely on 2 rotating discs.
Technical specifications:
Drive: Jansen MGT-600 Motorised hand tractor
Transmission: Power takeoff (P.T.O)
Mowing width: 100 cm
Mowing high: 5 - 13 cm
Blades: 4 pcs
