Other	1 single acting valve
Weight	405 kg

Description

The product is categorized as demo / used / incomplete. The machine is inspected and in working condition; cosmetic differences compared to a new machine may occur.
DK rotary disc mowers are rear-mounted tractor mowers
designed for cutting all types of grass and forage plants,
mowing areas alongside roads and for public utility works.
This type of mower has high work rates
with low-energy consumption and it can be
operated under difficult conditions such as:
flattened and tangled grass, damp terrain,
terrains with molehills, slopes, during
moderate rainfall, etc. Designed to work on
slopes from -45 up to +45 degrees. A set of
V-belts transmits power to gearbox.
