## Description

The machine can be used for planting: cabbage, lettuce, celery, tomatoes, peppers, strawberries, roses, shrubs, spruce, pine seedlings. It has 2, 3 or 4 row version. The seedlings can be carried on the plate so the workers can refill the plants in their hands, it is a very common way to plant seedlings. The workers have to put the seedlings in to the cups, as a result the distance between the plants are equal. it connects to the tractor via 3 point linkage.
