Description

HAY SLIDER SF The hay sliders SF are shaped slides that can be used in more or less inclined areas, to collect and slide the hay downhill. The front rack is made up of shaped tips in forged steel which, sliding easily on the ground, collect the product optimally. The upper part in shaped sheet metal allows for fluid evacuation of the product from the downstream side. Can be used in both directions of travel Static tool without moving parts Coupling for two wheels tractors (quick or swinging flanged) Forged steel tips Adjustable coupling height CE standards safety protections Sandblasting and oven powder coating 2 years warranty.
