Parameters

Name	Value
Weight	760 kg
Working pressure	250-420 bar
Oil flow	80-220 l/min

Description

Hydraulically driven stump grinder designed for 15–28 ton excavators. It is the ideal solution for fast and efficient stump removal in orchards, parks, forests, and urban areas.

Key Technical Specifications:

Grinding wheel diameter: 870 mm
Grinding wheel thickness: 40 mm
Cutting teeth: 2 × 22 hardened teeth
Compatible excavators: 15–28 t

Advantages:

Compact, stable design for easy maneuvering
Hydraulic motor with low maintenance
Two rows of strong chains to minimize flying debris
Oil-bath main shaft for long service life
Foldable support legs for stability
Optional side cutting blades for faster stump removal
