Description

130 LITER SIDE TIPPING BUCKET
The hydraulically tiltable side tipping bucket is the ideal solution for efficient and precise work in construction, agriculture, or garden landscaping. With a capacity of 130 liters and made of sturdy steel, it is perfect for transporting and depositing bulk materials such as sand, gravel, or soil. Thanks to the hydraulic tipping system, it allows for comfortable side discharge, even in confined spaces. Its stable construction and high-quality workmanship ensure long-lasting durability and reliable performance. Ideal for attaching to the Jansen® compact loader KL-200. Efficiency meets precision!
