Performance (Kw)	2,2 kw
Supply Voltage	230 V
Thrust	12 ton
Wedgestroke	540 mm
Maximum height of the splitted wood	540/870/1260 mm
Working table	350 x 270 mm
Weight	194 kg
Dimensions	820 x 650 x 1070 mm
Drivegear	electromotor

Description

The SPLE12FDP log splitter by Ceccato Olindo is an electric vertical log splitter entirely made in Italy. The SPLE12FDP with a thrust of 12 tons, a large-sized knife and an oversized high-strength steel frame, allows you to split wood logs, even knotty, of varying sizes up to a maximum of 54/87/126 cm in height thanks to the special construction with movable benches and the base (which acts as a worktop) in solid steel 20mm thick. It is equipped with a double pump that guarantees a powerful thrust and a great working speed. It is also equipped with wheels for movement and an automatic adjustable end of stroke control system. With this professional wood splitter the cutting work is simple and safe: the SPLE12FDP is equipped with special safety devices that protect the user. It needs 230 volt to be operated.
