| Working table | 350 x 270 mm |
| Weight | 144 kg |
| Dimensions | 820 x 600 x 1070 mm |
| Drivegear | electromotor |

Description

The SPLE12 log splitter by Ceccato Olindo is an electric vertical log splitter entirely made in Italy. The SPLE12 with a thrust of 12 tons, a large knife and a double tubular high strength steel frame, allows you to split wood logs, even knotty, of variable dimensions up to a maximum of 54 cm in height. It is equipped with a double pump that guarantees a powerful thrust and a great working speed. It is also equipped with wheels for moving and an automatic adjustable end of stroke control system. With this professional log splitter the cutting work is simple and safe: the SPLE12 is equipped with special safety devices that protect the user. It needs 400 volt to be operated.
