Parameters

Name	Unit
Drivegear	electromotor
Performance (Kw)	2,2 kw
Supply Voltage	230 V
Thrust	13 ton
Wedgestroke	520 mm
Maximum height of the splitted wood	520 mm
Working table	360 x 410 mm
Weight	205 kg
Dimensions	870 x 650 x 2230 mm
Drivegear	electromotor

Description

The SPLE13R4 wood splitter is an electric machine INTERALLY MADE IN ITALY made for domestic use but that winks at professionalism, in fact it is built with a large knife, guided by skids along a steel guide, which even under maximum effort safeguards the cylinder. It allows to split knotty wooden logs of variable dimensions up to a maximum height of 52 cm. It is equipped with a double pump that guarantees a powerful thrust and a great working speed. Moreover, it is equipped with 4 wheels for movement. It is equipped with a safety arch and automatic adjustable limit switch control system. It needs 230 volt to be operated.
