### Parameters

Name	Unit
Drivegear	electromotor
Performance (Kw)	3 kw
Supply Voltage	400 V
Thrust	13 ton
Wedge stroke	520 mm
Maximum height of the splitted wood	520 mm
Working table	360 x 410 mm
Weight	207 kg
Dimensions	870 x 650 x 2230 mm
Drivegear	electromotor

### Description

The SPLE13R4 wood splitter is an electric machine INTERALLY MADE IN ITALY made for domestic use but that winks at professionalism, in fact it is built with a large knife, guided by skids along a steel guide, which even under maximum effort safeguards the cylinder. It allows to split knotty wooden logs of variable dimensions up to a maximum height of 52 cm. It is equipped with a double pump that guarantees a powerful thrust and a great working speed. Moreover, it is equipped with 4 wheels for movement. It is equipped with a safety arch and automatic adjustable limit switch control system. It needs 400 volt to be operated.
