| Drivegear                           | electromotor         |
| Performance (Kw)                    | 2,2 kw               |
| Supply Voltage                      | 230 V                |
| Thrust                              | 13 ton               |
| Wedgestroke                         | 650 mm               |
| Maximum height of the splitted wood | 650 mm               |
| Working table                       | 500 X 380 mm         |
| Weight                              | 235 kg               |
| Dimensions                          | 1100 X 600 X 1840 mm |

### Description

The SPLE13TC wood splitter is an electric machine INTERALLY MADE IN ITALY made mainly for professionals, in fact it is built with a large knife, guided by skids along a steel guide, which even under maximum effort safeguards the cylinder. It allows to split knotty wooden logs up to a maximum height of 65 cm. It is equipped with additional drive controls located in the upper part of the machine that allow to split very large logs. It also has a double pump that guarantees a powerful thrust and a great working speed. It is equipped with 2 wheels for moving and a three-point hitch for the tractor. It is equipped with a safety arch and automatic adjustable limit switch control system. It needs 230 volt to be operated.
