Parameters

Name	Unit
Drivegear	electromotor
Performance (Kw)	2,2 kw
Supply Voltage	230 V
Thrust	13 ton
Wedgestroke	650 mm
Maximum height of the splitted wood	650 mm
Working table	500 X 380 mm
Weight	235 kg
Dimensions	1100 X 600 X 1840 mm
Drivegear	electromotor

Description

The SPLE13TC wood splitter is an electric machine INTERALLY MADE IN ITALY made mainly for professionals, in fact it is built with a large knife, guided by skids along a steel guide, which even under maximum effort safeguards the cylinder. It allows to split knotty wooden logs up to a maximum height of 65 cm. It is equipped with additional drive controls located in the upper part of the machine that allow to split very large logs. It also has a double pump that guarantees a powerful thrust and a great working speed. It is equipped with 2 wheels for moving and a three-point hitch for the tractor. It is equipped with a safety arch and automatic adjustable limit switch control system. It needs 230 volt to be operated.
