Description

The wood splitter SPLE6L by Ceccato Olindo is a vertical electric wood splitter entirely made in Italy. The SPLE6L with a thrust of 6 tons, allows to split wood logs of variable dimensions up to a maximum of 54 cm in height thanks to the bench that can be moved in two positions. It is also equipped with wheels for moving and an automatic adjustable end of stroke control system. With this professional log splitter, cutting work is simple and safe: the SPLE6L is equipped with special safety devices that protect the user. It needs 230 volt to be operated.
