Working table	390 x 300 mm
Weight	126 kg
Dimensions	800 x 740 x 1070 mm
Minimum HP	18 hp
Drivegear	electromotor/tractor PTO

Description

The SPLET10 log splitter by Ceccato Olindo is a vertical log splitter entirely made in Italy. The SPLET10 with a thrust of 10 tons and a reinforced double tubular frame, allows to split wood logs, even knotty, of variable dimensions up to a maximum height of 54 cm. It is equipped with a three-point hitch, a double pump on the electric motor and a pump-multiplier unit that engages directly into the PTO of the tractor which guarantees a powerful thrust and a great working speed. It is also equipped with wheels for movement and an automatic adjustable limit switch control system. With this professional log splitter, cutting work is simple and safe: the SPLET10 is equipped with special safety devices that protect the user. It needs 230 V or a minimum 18 HP tractor to be operated.
