Working table	350 x 270 mm
Weight	209 kg
Dimensions	890 x 650 x 1070 mm
Minimum HP	18 hp
Drivegear	electromotor/tractor PTO

Description

The SPLET12FDP log splitter by Ceccato Olindo is a vertical log splitter entirely made in Italy. The SPLET12FDP with a thrust of 12 tons, a large knife and an oversized high-strength steel frame, allows you to split wood logs, even knotty, of varying sizes up to a maximum of 54 cm in height thanks to the special construction with movable benches and a 20mm thick solid steel base. It is equipped with a double pump that guarantees a powerful thrust and a great working speed. It is also equipped with wheels for moving and an automatic adjustable end of stroke control system. With this professional wood splitter the cutting work is simple and safe: the SPLET12FDP is equipped with special safety devices that protect the user. It needs 230 volt or a minimum 18 HP tractor to be operated.
