Parameters

Name	Value
Drivegear	electromotor/tractor PTO
Performance (Kw)	3 kw
Supply Voltage	400 V
Thrust	13 ton
Wedgestroke	1100 mm
Maximum height of the splitted wood	540 - 1140 mm
Working table	390 x 300 mm
Weight	322 kg
Dimensions	900 x 810 x 2700 mm
Minimum HP	18 hp

Description

The wood splitter SPLET13TL is a MADE IN ITALY machine made mainly for professionals, in fact it is built with a large knife, guided by skids along a steel guide, which even under maximum effort safeguards the cylinder. It allows to split knotty wooden logs of variable dimensions up to a maximum height of 110 cm. It is equipped with additional drive controls located in the upper part of the machine that allow to split very large logs. It is also equipped with a double pump on the electric motor and a high capacity pump on the multiplier for cardan shaft use which guarantees a powerful thrust and a great working speed. It is also equipped with 2 wheels for the movement and 3 attachments for the tractor. It is equipped with a safety arch and automatic adjustable limit switch control system. It needs 400 volt or a minimum 18 HP tractor to be operated.
