| Drivegear | electromotor/tractor PTO |
| Performance (Kw) | 5,5 kw |
| Supply Voltage | 400 V |
| Thrust | 25 ton |
| Wedgestroke | 1140 mm |
| Maximum height of the splitted wood | 540 - 1140 mm |
| Working table | 360 x 410 mm |
| Weight | 445 kg |
| Dimensions | 1200 x 1130 x 2750 mm |
| Minimum HP | 30 hp |

## Description

The wood splitter SPLET25 is a MADE IN ITALY machine made mainly for professionals, in fact it is built with a large knife, guided by skids along a steel guide, which even under maximum effort safeguards the cylinder. It allows to split knotty wooden logs of variable dimensions up to a maximum height of 114 cm. It is equipped with additional drive controls located in the upper part of the machine that allow to split very large logs. It is also equipped with a double pump on the electric motor and a high capacity pump on the multiplier for cardan shaft use which guarantees a powerful thrust and a great working speed. It is also equipped with 2 wheels for the movement and 3 attachments for the tractor. It is equipped with a safety arch and automatic adjustable limit switch control system. It needs 400 volt or a minimum 30 HP tractor to be operated.
