Description

The SPLT10 log splitter by Ceccato Olindo is a vertical log splitter entirely made in Italy. The SPLT10 with a thrust of 10 tons and a reinforced double tubular frame, allows to split wood logs, even knotty, of variable dimensions up to a maximum height of 54 cm. It is equipped with a three-point hitch and a pump and multiplier unit that engages directly into the PTO of the tractor which guarantees a powerful thrust and a great working speed. It is also equipped with wheels for movement and an automatic adjustable end of stroke control system. With this professional log splitter, cutting work is simple and safe: the SPLE10 is equipped with special safety devices that protect the user.
