Working table	350 x 270 mm
Weight	190 kg
Dimensions	890 x 750 x 1070 mm
Minimum HP	18 hp

Description

The SPLT12F is a vertical log splitter entirely made in Italy, with a thrust of 12 tons, a large-sized knife and an oversized high-strength steel frame, allows you to split wood logs, even knotty, of variable dimensions up to a maximum of 54 cm in height thanks to the special construction with movable benches and a 20mm thick solid steel base. It is equipped with three-point couplings and a pump and multiplier unit that engages directly into the PTO of the tractor which guarantees a powerful thrust and a great working speed. It is equipped with wheels for movement and an automatic adjustable end of stroke control system. With this professional log splitter, cutting work is simple and safe: the SPLT12F is equipped with special safety devices that protect the user.
