Working table	360 x 410 mm
Weight	200 kg
Dimensions	790 x 860 x 2230 mm
Minimum HP	18 hp

Description

The SPLT16R4 wood splitter is a machine entirely made in Italy, made mainly for professionals, in fact it is built with a large knife, guided by skids along a steel guide, which even under maximum effort safeguards the cylinder. It allows to split knotty wooden logs of variable dimensions up to a maximum height of 52 cm. It is also equipped with a pump and multiplier unit that engages directly into the PTO of the tractor which guarantees a powerful thrust and a high working speed. It is equipped with 4 wheels for movement and a three-point linkage for the tractor. It is equipped with a safety arch and automatic adjustable limit switch control system.
