Description

TBMI and TBMI-MARINE mulchers and crushers are manufactured in 1.80 m working width. They are designed to be coupled to mini-loaders with rubber or mixed chains of between 2.5 and 4 t. Their cutting elements are either knives or hammers. The hammer rotor shaft of the TBMI model is floating, the rotor being manufactured with discs where the hammer oscillates 360° and the crushing capacity of this model is 12 cm. in diameter.

- Anti-wear chassis sheet.
- Unidirectional or reversible hydraulic motor.
- Transmitter body and fairing motor.
- Transmission by pulleys and belts.
- Hook for minicharger.
- Rear control roller.
- Anti-projection front chains.
- Floating hammer rotor.
