### Parameters

| Name                   | Unit    |
|------------------------|---------|
| Working width          | 4500 mm |
| Transport width        | 295 cm  |
| CAT                    | III     |
| Number of spring tines | 57 pcs  |
| Distance between rows  | 800 mm  |
| Minimum HP             | 110 hp  |
| Weight                 | 4250 kg |

### Description

TERRA is a successfully tried and tested machine that has been in use in European agriculture for many years. Its sophisticated and stable mechanics have proven their resilience on all soil types. The threefold working frame with roller-tine-roller combination turns even hard, ploughed soils into a finely crumbed seed bed in just one traverse. The TERRA's spring tines can be substituted for rigid tines or goosefoot shares, meaning the machine can be used over a very broad range.
