Parameters

Name	Unit
Working width	8000 mm
Transport width	330 cm
CAT	III
Number of units (tine harrow)	6 pcs
Number of spring tines	98 pcs
Distance between rows	800 mm
Minimum HP	250 hp
Weight	8300 kg

Description

TERRA is a successfully tried and tested machine that has been in use in European agriculture for many years. Its sophisticated and stable mechanics have proven their resilience on all soil types. The threefold working frame with roller-tine-roller combination turns even hard, ploughed soils into a finely crumbed seed bed in just one traverse. The TERRA's spring tines can be substituted for rigid tines or goosefoot shares, meaning the machine can be used over a very broad range.
