

Belafer TRB-P-480-H2

4.8 m flail mower (foldable working units)

Parameters

Name	Unit
Working width	4800 mm
Weight	2900 kg
Minimum HP	150 hp
Hammer PCs	44 pcs

Description

TRBP-H2 folding agricultural flail mower

TRB-P-H2 with working width of 4.80 mts in its bodies allows with the overlapping mower a total width of 5 mts. The overlap system works hydraulically and only if necessary, depending on the working needs. The machine is for cereals and weeds. Suitable for tractors from 150 to 240 hp. Perfect overlapping of the bodies. Fully hydraulic overlapping shredder to leave a perfect cut between the bodies. The hydraulic gates allow the expulsion and the scraping of the shredded elements on the ground.

- Double folding chassis in special steel.
- Spray proof front chains.
- Double rear roller of 300mm with protected greasing system.
- Rear doors with hydraulic opening.
- Folding system with safety valves.
- Double transmission with free wheel.
- Rear mulching system with overlapping.
