Parameters

Name	Unit
Performance (HP)	4 hp
Weight	92 kg
Max tree diameter	5 cm
Blade	2 pcs
Opposite blade	2 pcs
Mincing blade	8 pcs
Dimensions	1340 x 1050 x 1060 mm
Tunnel entrance	360 x 360 cm
Drivegear	electromotor

Description

Our electric TRITONE ONE is entirely made in ITALY and is built following the logic of large size bio-shredders, thus obtaining the maximum result in terms of cutting, speed and reliability. It mounts a 4HP motor, with a cutting mass with two main blades and 8 shredder knives inside. The main feature that differentiates it in its category are the two interchangeable counter blades, like the larger professional bio-shredders. Blade and counter-blade make the cutting easier and reduce the motor effort by increasing the effectiveness of the machine and the speed of the work. It mounts pneumatic wheels. The electric TRITONE ONE complies with CE regulations on safety at work. It needs 400 volt to be operated.
