Blade	2 pcs
Opposite blade	2 pcs
Mincing blade	10 pcs
Dimensions	1700x670x1730 mm
Tunnel entrance	650x420 cm
Drivegear	electromotor

### Description

TRITONE BIG ELECTRIC is a professional electric chipper, suitable for shredding large quantities of vegetable waste, it is an entirely Italian product and it is equipped with a large loading hopper to facilitate the insertion of branched vegetable waste with a maximum diameter of 8 cm. Optional refining sieves can also be inserted to reduce the size of the wood chips. The hopper is foldable to limit the encumbrance in the road transport or when it is put at rest. The outlet of the wood chips is rotatable at 180° and has a height of about 2 meters. It has a very large cutting mass, about 800 mm in diameter, with 2 front knives, 7 central knives, 10 knives/chopping hammers and 2 counter-blades. Optional refining sieves can also be inserted to reduce the size of the wood chips. It is equipped with 2 pneumatic wheels with high quality steel rims. It weighs about 165 kg. In the range there are over 70 models, both smaller and larger, suitable for any need. The Tritone Big Electric of Ceccato Olindo respects the CE regulations on safety at work.
