Parameters

Name	Unit
Performance (HP)	18 hp
Weight	120 kg
Max tree diameter	8 cm
Blade	2 pcs
Opposite blade	2 pcs
Mincing blade	8 pcs
Dimensions	1630 x 1050 x 1250 mm
Tunnel entrance	650 x 420 cm
Drivegear	tractor PTO
Minimum HP	18 hp

Description

Tritone Maxi P.T.O. is a semi-professional bio-shredder driven by cardan shaft, suitable for shredding large quantities of vegetable waste; it is an entirely Italian product and is equipped with a large loading hopper to facilitate the insertion of branched vegetable waste, an unloading mouth at a height of one metre and 15 centimetres, a three-point hitch for the tractor, a gearbox with cardan shaft coupling and a very large cutting mass with two main knives and 8 shredder knives inside. The transmission between the gearbox and the cutting edge is via two belts. The main feature that makes it number one in its category are the two interchangeable counter blades. Blade and counter-blade in fact make the cutting easier and therefore increase the efficiency of the machine and the speed of the work. It has full wheels. The Tritone Maxi P.T.O. complies with CE regulations on safety at work. It needs a minimum 18 HP tractor to be operated.
