Mincing blade	8 pcs
Dimensions	1340 x 1050 x 1130 mm
Tunnel entrance	360 x 360 cm
Drivegear	gasoline engine

Description

The TRITONE ONE HONDA GX200 bio-shredder is driven by an internal combustion engine and built following the logic of large size bio-shredders, thus obtaining the maximum result in terms of cutting, speed and reliability. It is an entirely Italian product and is equipped with a 6.5 hp honda GX200 motor (the best in its category), a cutting mass with two main blades and 8 shredder knives inside. The transmission between engine and cutting mass is belt driven, reducing the stress of the engine during work.
