## Description

Our most prestigious product in the range of biochippers is the MEGA MONSTER PTO model. It is fitted with a 3 belts transmission, a starter pulley with clutch is fitted as standard. It has been designed with an inlet opening of important dimensions and a 2 m high discharge, variable at 180°, which allows to convey the material in boxes or trailers. It is easy to move thanks to the second wheel of the trolley that allows a 360° rotation. It has an important mass, equipped with several blades and hammers that facilitate the entry and cutting of several branches at the same time. Thanks to the folding hopper the dimensions of the machine are reduced and allow an easy storage. It needs a minimum 30 HP tractor to be operated.
